siberX CYBER GAMIFIED

ABOUT CYBER GAMIFIED

Cyber Gamified is an organization that creates unforgettable cybersecurity training and awareness experiences through gamification. From modern certification training to simulated emergency breaches, Cyber Gamified is your one-stop-shop to ensure your organization has the right protocols and procedures in place for today's cybersecurity conditions.

If your business is curious as to how your response and recovery processes would fare against today's modern ransomware, or insider threats, we are happy to take your team through a simulation crafted specifically for your playbooks and scenarios.

OUR SOLUTION

TTX

Tabletop Experience

A role-play style tabletop experience which simulates actual world events and provides an authentic cybersecurity breach experience.

"SETTING ASIDE TIME TO CONDUCT AN EXERCISE CAN POTENTIALLY SAVE YOUR ORGANIZATION THOUSANDS OF DOLLARS IN RANSOMWARE OR DATA BREACH RECOVERY EXPENSES."
- Center for Internet Security®

siberX **CYBER** GAMIFIED

TTX

A ROLEPLAY TABLETOP EXPERIENCE WITH
SIMULATED REAL-WORLD EVENTS
THAT PROVIDES AN AUTHENTIC BREACH EXPERIENCE.

A DND-style RPG that takes players through a simulated cyber attack.
Each game is built around current events and the narrative reflects real life occurrences.
The game can be customized to mimic your organization and gives you the opportunity
to safely test and find potential weaknesses in your scenario book.
Players experience the full scope of the breach as they are immersed in a detailed
walkthrough of the events before, during and after the breach.

siberX CYBER GAMIFIED

TTX

CONDENSED BREACHES

Scenarios can average around an hour and allows you to roleplay the first hour of a live breach or to condense three days of decisions into an hour.

INSTRUCTOR LED

All game hosts have an extensive cybersecurity background ensuring the best supports are in place for your success in the game.

CUSTOMIZE YOUR GAME

Any scenario can be tailored to follow your organizations play book. Put your existing crisis management program to the test.

VIRTUAL OR IN-PERSON

TTX's gameplay is 100% digital meaning it can be played entirely online across the globe, or play in-person and add on some physical elements.

siberX CYBER GAMIFIED

WHO IS THIS FOR?

What part of an organization is this exercise ideal for?

01

DECISION MAKERS

Give your C-Suite an opportunity to see the impacts of their decisions during a crisis or have them play a hands on role where they can get an understanding of existing challenges and opportunities

02

IT PROFESSIONALS

Give your IT members an opportunity show off their skills, test their procedures and if necessary, meet compliance requirements in a fun, low cost and risk free manner

03

END USERS

Give your end users the challenge of being in Cybersecurity for the day, game play will help them understand the responsibility they share on keeping the organization safe and create a feeling of team effort instead up " us vs. them" when dealing with your IT team.

HOW TO PLAY

POST GAMEPLAY REVIEW

LESSONS LEARNED

- Every live gameplay is accompanied by 5 - 10 minutes of post game discussion to wrap up the scenario and dive into any immediate lessons learned.
- This conversation allows for a post gameplay review to be done by our game host. This review will be shared with you in the days following to help boost your existing plan.
